BLOUNT'S PREMIUM SEAFOOD SPECIALTIES ARE NOW AVAILABLE!

All hand-shucked, not steamed open or heavily processed. Blount's clam meat is tender and full of its natural juice and bursting with clam flavor without preservatives. Quality is consistent and guaranteed in every pack!

Blount's hand-shuck technique produces the highest quality meat (heat shucking methods tend to blanch and toughen the meat more than our standards would allow). These clams are washed in fresh water and we use no salt or preservatives. The end result is a healthier, fresher, sweeter, more tender product. Blount's Sea Clams are great when breaded and deep fried, served as part of a fisherman's plate or in a roll with fries and cole slaw. Use our Sea Clam meat to make delicious chowders and sauces. The possibilities are endless!

The Sea Clam

Found in abundance in the cold, clear waters of the North Atlantic, the sea clam grows up to 12 inches in diameter. Long known for its sweet tasting meat, it is now recognized for its nutritional benefits as well. Like other shellfish, sea clams contain Omega 3 fatty acids, which are important in maintaining a healthy heart. They are low in fat and high in protein.
